Case Study Short Version: Management Consulting Company in US

# Semi-Automated IT Application Improves Employee Engagement

Semi-Automated web application increases  
employee experience, reduces attrition and  
saves substantial cost

## BACKGROUND

A leading management consulting company based out of US wanted to develop an employee management application which includes:

- Employee data management
- Timesheet management
- Salary processing
- Invoice generation

Also, consulting company was looking for a cost-effective enhancement, maintenance, administration, support for application on a regular basis.

## APPROACH TO SOLUTION

AIMLEAP - Digital IT Team built a web application which manages

- Automated template driven employee data management
- Time Sheet: One click solution for entering daily timesheet
- Salary data management: Automated salary data calculation and processing
- Invoice generation: Semi-automated invoice generation

## HIGHLIGHTS

- Cost saving – annual FTE reduction ~ 3
- Increased process efficiency 60%
- Increased employee engagement

---
